BALTIMORE, October 26.—The House of Bishops adopted the following, which was lost in the House of Clerical and Lay Delegates: The House of Bishops inform the House of Clerical and Lay Deputies that it has adopted the following resolution:

Resolved, The House of Clerical and Lay Deputies concurring, That the following canon be adopted and enacted: Elevation of the elements in the holy communion in such a manner as to expose them to the view of the people as objects toward which adoration is to be made in or after the prayer of consecration, or in the act of administering them, or in carrying them to or from the communicants, and any gesture, posture or act, implying such adoration, and any ceremony not prescribed as part of the order of the administration of the Lord's Supper, or holy communion in the book of common prayer, and the celebration or reception of the holy communion by any Bishop or Priest, when no person receives with him likewise the use of any administration of the holy communion of any hymns, prayers, collects, epistles, or worship other than those appointed in the authorized formularies of the church, or under section fourteen of canon thirteen, title one of the digest, are hereby forbidden.

The following was adopted almost unanimously in the lower house:

Resolved, (The House of Bishops concurring,) That this convention hereby expresses its decided condemnation of all ceremonies, observances and practices which are fitted to express a doctrine foreign to that set forth in the authorized standards of the Church.

Resolved, That in the judgment of this house, the paternal counsel and advice of our Rt. Rev. Fathers, the bishops of the Church, is deemed sufficient at this time to secure the suppression of all that is irregular and unseemly, and to promote greater uniformity in conducting the public worship of the church and in the administration of the Holy Sacrament.

BALTIMORE, October 27.—The convention resolved to elect an assistant bishop for Texas.

SAN FRANCISCO, October 27.—Eighteen dead and six seriously hurt Chinese were found at Los Angeles. The surviving Chinese fled, and their houses were plundered—the plunder including \$10,000 in gold.

NEW YORK, October 27.—Tweed was served with an order of arrest early this afternoon, by Sheriff Brennan. Tweed stated he was anxious to go before the courts. After a lengthy consultation between counsel, bail in the amount of \$2,000,000 was furnished by Jay Gould, Terrence Farly, Hugh Hastings, Bernard Kelly and B. O. Fairchild. Another suit was commenced in the Supreme Court against Tweed by the corporation—counsel O'Gorman, in behalf of supervisors, charging corrupt conspiracy to defraud the County by fraudulent charges for work and materials. The case will be tried in this County.

ATLANTA, October 27.—Schlater, Superintendent of the Brunswick and Albany Railroad, left without notice. Kimball has paid up. He sold out the interest of Lyons & McIndon, Blue & Co., Hines & Hobbs, and others, for \$150,000. Gov. Bullock has signed and sealed, and delivered himself, bonds amounting to \$5,180,000—the full amount the Brunswick and Albany Railroad is entitled to, when completed; while the road is far from being completed. It is stated Gov. Bullock did not use the services of the Superintendent of Public Works to examine or report upon the condition of the road preliminary to his endorsement of the bonds, but appointed an engineer in the employ of the road. The amount of bonds issued for this road is \$10,000,000. The entire indebtedness of the State at the close of the war.

WASHINGTON, October 27.—The department will be closed tomorrow, in respect to Thos. Ewin.

The count at Austin, by throwing out Limestone and Free Stone Counties, which gave a Democratic majority of 1,630, leaves Clark's majority 947. A special to the Bulletin says Clark has received a certificate of election. Conner is said to be the only Democrat who will receive a certificate of election. DeGener, Radical, refuses to accept a certificate, on the ground that Hancock received a majority of votes.

REGAL DOMESTIC ECONOMY.—The habits of King Amadeus are thus noted by a correspondent writing from Valencia, Spain:

"His Majesty is a teetotaler. Two of the first little pueblos you come to after leaving Madrid are exclusively wine-growing. They are Pinto and Valdemora. Entre Pinto y Valdemora (between Pinto and Valdemora) is the popular Spanish expression for a person who has indulged too freely. His Majesty is a staunch water drinker, and studiously avoids the cup which steals the senses both of kings and peasants. His habits are simple and regular, and in them he is cheerfully seconded by the Queen. Rising at 6—never later than 7—they study and read the papers till 10, when they take breakfast. Breakfast is a simple meal of four courses. Dinner, which is at 5 o'clock, is only of six courses, including dessert, and its utmost duration is an hour. Since we have been at Valencia the King has given State dinners, at which he has invited the principal men of the place, yet at no one of these have we sat over fifty minutes. His Majesty does not stint his guests in good wine. There is plenty of it, and of the choicest kind; but you must drink within the stipulated time—no longer. I could tell you other things of the domestic lives of this young King and Queen, which would show you how fast they are making the Royal Palace at Madrid a model to every household in Europe. Large as is the royal pay, every cent of it, and some \$50,000 beyond it, will have been spent by their Majesties in charities and reconstructions in the royal palaces of Madrid, Aranjuez and the Esorial. Their charities alone are \$17,500 a month. I have these figures from the Royal Treasurer, who has offered to show me his books on our return to Madrid."

Hon. Carl Schurz delivered an eloquent oration on the political questions of the day, at Louisville, a few evenings ago, in which he repeated his able and unanswerable arguments in favor of preserving the liberties of the people, and in opposition to the despotism of the Administration. His reception partook of the nature of an ovation. The crowd was tremendous, and thousands were unable to obtain even standing room. The Senator's speech was nearly two hours in length, and was received with the most emphatic expressions of approval. As an evidence of the effect produced by his patriotic and masterly effort, it is noticeable that the Louisville Ledger, which is opposed to many of the orator's suggestions, is, nevertheless, constrained to admit that he is evidently a scholar and a profound thinker; that he "reasons logically and supports his position with arguments which prove him to be a man of thought and calculation;" that he is undoubtedly sincere, and that his great power in American politics "will be exerted in the interest of a magnanimous patriotism."

Brick Pomeroy hits the nail on the head when he says: 2,000 active, unprincipled Northern scoundrels, (State prison convicts preferred,) are wanted to travel through the South scaring, robbing and murdering people here and there, burning houses and other property. Pay prompt, and no particular danger. These crimes to be charged to the Ku Klux, and paid for by the Republicans, who will then have something to talk about while they are passing bills to rob the people of millions of dollars and millions of acres of land belonging to the public. For situations and information, address U. S. Grant, President, and breeder of dogs, or B. F. Butler, thief and coward, Washington, D. C.

THE EXTENT OF RADICAL CORRUPTIONS AT THE SOUTH.

The exposure which has lately been made, and is attracting world-wide attention, as shown by the comments of the English, as well as of our own press, of financial corruption and ring management in New York city, is curiously and suggestively like to that which has been repeatedly made of a similar state of things in the Southern States. The indignant resolutions of the citizens' meeting at Cooper Institute echo almost literally the complaints which, for three years past, the Southern press and people have been uttering in the ears of the nation. The fact that the Republican party has been mostly indifferent to the spectacle presented at the South, while it is vexed to its inmost soul at the recital of the misdeeds of Tweed & Co., only illustrates the difference whose ox is gored. It always does make a difference in politics, although it makes none in morals, and should make none in the judgment of honest and patriotic men, which side does the stealing. In this city Tammany is accused of plundering the public to enrich itself and retain the supremacy of the Democratic party. The wholesale robberies of the State Governments and people at the South have been excused and palliated, if not justified, because the men who perpetrated them were of an unblemished "loyalty," and it was by such means that the perpetuity of carpet-bag rule and Republican ascendancy was to be secured.

All the Southern States have not suffered equally, it is true, but not one has escaped. The history of Radical mis-government in the South recalls that of the worst period of pro-consular government, when extortions like those of the Quæstor Verres in Sicily furnished an immortal text for the indignant eloquence of Cicero. In modern times it finds its only parallel in the policy which Spain has remorselessly pursued toward her colonies, farming them out among political favorites and needy adventurers, if it does not even rival the experience of Mexico and Peru in the hands of the conquistadores. Every word of indignant protest and condemnation contained in the resolutions passed by the citizens' meeting in this city in reference to their own municipal grievances, is appropriate to the condemnation of the South, fleeced and plundered by usurping rulers; or if a higher strain of feeling be invoked, it will find most fitting expression in the language in which our forefathers recited some of the oppressions of the British Crown:

"He has created a multitude of offices, and sent hither swarms of officers to harass our people, and eat up their substance. He has kept among us in peace standing armies, without the consent of our legislatures. He has affected to render the military independent of, and superior to, the civil power."

The history of Congressional reconstruction and Ku Klux legislation could not be better epitomized; and it is in pursuance of this policy that the local governments have been created and upheld, which have devoured the substance of the Southern people and saddled them with such enormous burdens of debt. We do not cite these facts as furnishing any well-grounded complaints of the tax-payers and property-holders of New York. But in the midst of all this Republican party clamor upon the subject of the wickedness and greed of Tammany, it is well to hold in remembrance these fruits of unrestricted and uncontrolled Republican rule at the South. Whoever wishes to be impartial and to preserve a judicial temper, must look on both sides of the picture.

Public opinion will never allow these guilty culprits to escape the just responsibility of their own acts. Accessories before the fact are generally regarded as equally guilty with the principals. Accessories after the fact, merit the just indignation of law-abiding people.

Truo as preaching; and the evidence given in the trial of Cannon and Palmer, for the murder of poor Matt Stevens, shows that Jane Mobley, a renegade member of the Legislature from this County, promised to take ammunition to the gang of men engaged in that terrible and malicious murder. The law will be vindicated, sooner or later.

Madame, the Queen of Denmark, is certainly a "managing mamma." One daughter is the future Empress of Russia, the other the future Queen of England; while one of her sons is King of Greece and the son-in-law of a Czar.

Known unto God are all future events and contingencies. I have thrown myself blind-fold, and I trust, without reserve, into his almighty hands.—Whitefield.

News of trouble and rumors of possible civil war come to us from Liberia. Some two years ago the present Executive of that country, President Royce, was elected for the term of four years. Recently, however, the Congress of Liberia passed an Act limiting the President's term to two years, and now the partisans of Roberts, who will be remembered as the predecessor of Royce, insist upon the immediate resignation of the latter and a new election by the people, Roberts himself being a candidate for the office. Royce refuses to resign, and declares his intention of serving out the term for which he was elected, in which he is sustained by a considerable party, and this refusal has given rise to a great deal of bitterness between the two factions. An affray lately occurred at the seat of government between the adherents of Royce and Roberts, in which the collector of the port, a staunch supporter of the present incumbent, and one of the most able and prominent men of the country, was killed. This occurrence has added fuel to the already existing fire, and it is feared that Roberts, who is said to have quite a formidable backing, will raise the standard of open rebellion.

The bed of the Mississippi River seems to be filling up at a rate which threatens, in the course of time, to seriously affect navigation during the dry season. This year at St. Louis, while the surface of the water has been four feet and one inch above the lowest stage of water attained by the river in 1863, there was at the same time only about five inches difference in the depth of the channel between these years, showing that the bottom of the river must be three feet and four inches higher than it was in 1863. So in 1856 the bed of the river was found to be two feet and three inches higher than it was ten years previous.
